Offering Aircraft Charter & Management, Aircraft Sales & Acquisitions, Turbine & Piston Maintenance, And Flight Instruction

We Are Your Aircraft Charter Division

As an ARG/US Gold rated facility, Monarch Air's focus is on your safety and comfort. All aircraft are flown and maintained to the highest FAA standards while providing the highest quality customer experience. Some of the many advantages of a Monarch Air charter flight over airline travel include:

- Cut travel times by 50% or more by flying directly to the airport closest to your final destination
- Complete flexibility with scheduling to accommodate whatever specifics your itinerary may include
- Full concierge services including aircraft catering, assistance with hotel reservations and ground transportation
- Increase efficiency by eliminating lost time due to long security lines, connections, lost luggage and additional ground transportation times

With over 50 years of combined flying experience in our management team, we assure all crews adhere to strict operational and safety requirements that mirror that of commercial airlines.

We Are Your Aircraft Management Division

Monarch Air offers an integrated aircraft management solution complete from acquisition to flight operations. Our management team is dedicated to insuring that your aircraft is maintained and operated in a manner that allows it to become a more valuable resource for your organization. Monarch Air's integrated aircraft management solution includes:

- Complete turn-key operation
- All human resource services
- Aircraft maintenance oversight and quality assurance
- Fiscal budgeting and asset management
- FAA regulatory oversight and compliance
- Flight scheduling, coordination and concierge services

We Are Your Aircraft Maintenance Division

In the fast-paced world of aviation, Monarch Air understands that serving aircraft owners, managers and pilots requires an understanding of the industry as well as knowledge of the equipment and expertise to deliver quality service every time your aircraft visits our facility.

Whether performing routine turbine or piston aircraft inspections, a major repair or modification, Monarch Air's FAA approved repair station will provide professional, experienced attention that supports your budget and scheduling demands.

Monarch Air's maintenance team specializes in repair and servicing of Cessna as well as Beechcraft turbine powered aircraft. In addition, we are an authorized Cessna, Pratt and Whitney, Lycoming and Michelin Service Center.

We Are Your Flight Department

With the backing of a dedicated management team, flight crew and maintenance department, Monarch Air will be your organization's in-house flight department with a vested interest in your success. From day one, our team will work hard to exceed your expectations in personal and business air travel.
